

CERTIFICATION OF PROJECT ASSISTANT

28 December 2024

To Whom It May Concern,

I am pleased to formally recognize Kuan Wei Chen for serving as a Project Assistant under my supervision in the Artificial Intelligence Application Laboratory at the Department of Electrical Engineering, National Changhua University of Education, from June 2024 to December 2024.

During this period, Kuan Wei made significant contributions to the "Two-step Authentication Multi-biometric System" project. He successfully integrated face recognition technology and designed innovative models for voice recognition, which substantially enhanced the security and reliability of our authentication protocols. He also provided valuable support to the "ShuffleSRNet for Human Pose Estimation" research. Throughout these initiatives, Kuan Wei consistently demonstrated exceptional proficiency in developing and implementing advanced computer vision algorithms, showcasing both technical expertise and practical problem-solving abilities.

As a project assistant for both the TEEP (Taiwan Experience Education Program) and IIPP (International Internship Pilot Program), Kuan Wei effectively led and guided eight international interns. His responsibilities included providing technical direction, sharing expertise in machine learning frameworks, and facilitating knowledge transfer across diverse computer vision applications. Under his guidance, the international interns were able to make meaningful contributions to our research initiatives.

Throughout his assistantship, Kuan Wei consistently exhibited outstanding technical skills in deep learning model implementation, strong analytical capabilities, and a comprehensive understanding of contemporary computer vision challenges. His ability to work independently while functioning as a valuable team member significantly enhanced our laboratory's research output. His demonstrated commitment to teamwork, technical excellence, and research enthusiasm was exemplary. This letter serves as formal recognition of his valuable contributions.

Sincerely,

Dr. Wen Ren Yang

**Associate Professor, Department of Electrical Engineering
Artificial Intelligence Application Laboratory
National Changhua University of Education
Changhua, Taiwan**
